**THINGS TO BE AWARE OF:**

Food is your responsibility. It is a good idea to bring a cooler with food and drink. The cooler could be used to transport fish fillets back home. Ice will be provided for the return trip.

**Those under 16 years of age MUST be under the supervision of an adult.**

**That adult will be accountable for their well being and safety. If you are the father of three children attending, you can supervise one. The others must each have an adult assigned to them for supervision.**

Warm clothes are strongly suggested; as we leave the shore line the temperature drops. You should be prepared with layers of clothes. It is also a good idea to bring wet weather gear not only for rain, but it also acts as a great windbreaker while at sea. Sneakers or deck shoes are imperative - we suggest dark glasses (Polaroid) for your eye protection and a hand towel to keep your hands fairly clean.

**Alcohol and drugs are prohibited on this trip. There is a beer bar on board but it will NOT be for our use.**

If you are concerned with motion sickness, we encourage you to contact your physician for preventive precautions and use as prescribed.

**Any questions can be referred to:**
